To the Central Committee of
M.P.L.A. -Partido do Trabalho

Dear comrades,

On behalf of Turkish socialist and progressive forces, I would like to express our deep sorrow for the death of Comrade Agustino Netho, the great leader of Angolan people.

Comrade Netho is one of the prominent figures of the cause of peace, national independence, democracy, social progress and socialism in our time. By his devoted and consistent struggle Comrade Netho has deserved to be one of the heroic symbols of the whole African liberation movement against imperialism, colonialism, neo-colonialism and the whole international reaction.

Comrade Netho was only an outstanding liberation leader, he was also a militant follower of Marxism-Leninism and proletarian internationalism.

Once again expressing our deep sorrow for the death of Comrade Agustino Netho, I send our militant greetings and solidarity feelings to the Angolan people and to its vanguard, M.P.L.A.
